PYRON'S

DECLARATION OF PRINCIPLES.

The Platform of the Laborers, Mechanics and all the Workingmen of the United States.

They Propose to Meet in Convention next Year and Nominate Candidates for the Presidency and Vice Presidency of the United States.

Amnesty and Justice to the South Demanded-A Fair Shake All Round.

St. Louis, August 10.-The declaration of principles with which the National Labor party propose to go before the country next year is as fol lows: Referring to a call for a National Convention, to nominate can-didates for the Presidency and Vice Presidency, they say: "In making this call and presuming to enter into competition with existing parties, it is meet that we should give to the world our reasons, as well as reme dies, we propose for the wrongs of which we complain. Starting, then, with the maxim that our Government is founded on the sovereignty and consent of the governed, and its purpos to protect property and enforce untural rights, and thus give all an equitable chance in the race of life. The land, water, air and all the natural elements are common gifts, and the government are only trustees to guard against their misapplication, and that, as trustees, they have no right to alieuate without the consent of the owners is treely

given, and that all classes of legisla tion whereby these original and com mon elements or the proceeds of the same are enhanced by intelligent labor are perverted from their original design and made to inurate to the benefit of the producers and injury of the producers is wrong and subversive of he purposes of a good government and that all able-bodied, intelligent persons should contribute to the common stock by useful industry, as to sum or quantity, or quality, equal to their own support and legislation should tend as far as possible to the equitable distribution of surplus pro lucts. If these propositions are true our government is wholly perverted from its true design, and the sacred names of Democracy and Republicanism are synonymous of despotism and the parties represented thereby as now organized, are engines of oppression crushing out the lives of We need only to point to the facts that in this beneficent country of unlimited resources, with the land annually groaning beneath the products of human effort, the mass of the people have no supply beyond their daily wants, compelled, from unjust conditions, in sickness and misfortune, to become paupers and vagrants. Pauperism and crime are the prevailing questions of all modern statesmanship, and it is with these we have to deal. How far these evils are connected with the abuses inflicted on labor a superficial statesmanship seems not to perceive. Chattle slavery has been abolished, but the rights and relations of labor stand just where they did before emancipation in respect to the division its products. difference lies only in the methods of abstracting the results and concentrating them in the few capitalists now the masters, and these

are the instrumentalities by which these wrongs are inflicted? First-Banking and moneyed monop olies, by which, through various rates of interest, the products of human labor are concentrated in the hands of This is the great central source of these wrongs, in and through which all other monopolies exist and operate

The same rule to be applied to the Postoffice and Interior Departments as far as may be practicable—the Secretaries of the respective departments to be President of such boards.

RAILROAD MURDER

A Train Precipitated Through a Bridge---Several Lives Lost---The Train and Wreck.

BANGOR, ME., August 10 .- As the Maine Central railway train was enacross the Hampden road gave way, causing a general smash up, and kill-ing one person outright and injuring thirty, more or less seriously. The engine and a portion of the express and mail car had got across the bridge whole Democratic vote had been have been practicing imposition on when the structure went down. The one Pullman palace car, was tumbled into the streets of the city. The smoking car was plunged a distance of twenty feet into the streets, followed by two passenger cars, and all three were completely torn to pieces. The third passenger car was plunged down the abyss, striking upon the forward end, crushing it in, while the rear one was suspended at an angle of fortyfive degress by the broken timbers hours. He rests only thirty-eight der of the bonds offered by the Secrefive degress by the broken timbers and abutments. The Pullman palace car remained upon the track, being but slightly damaged by contact with the preceding cars, though none of its passengers were in any way injured. Wm. Percival, brakeman, was killed while standing at his post on the front platform of the third passenger car. The train being behind time was running at a great rate of speed to running at a great rate of speed to make up, and the loss of life would have been fearful but for the small number of passengers. Many of the

possible assistance. IMPORTANT TO BANKERS.

The Question of the Tax of Bank Shares Above Their Par and at Their Market Value.

teen banks against the City Collector, says that shares of the national banks eannot be assessed at a higher valuation than par value thereof as that tax is in nature royalty of upon denominational value of each share respectively. If a share could be ased at any other value that would involve an ascertainment on the actual property of the bank and a deduction therefrom of so much works of history, poetry and fiction, will highly appreciate your cordial thereof as is invested in United States bonds. The Supreme Court of the United States has decided that it cannot be done, for the reason that the tax upon a share was intended to be upon the new use, to which the capitalist put his bonds by embanking them in a national bank. He considered it, therefore, in this light that a New York; F. Steinbach, St. Louis; before the expiration of his term of was well tax could be levied only upon the Wm. Medal, St. Louis; F. Probst, office, nominal value of each share, whether the share was actually more or less than par. The court also held that than par. The court also held that the State law of 1867, providing for the taxation of bank shares to be wholly void, because in the contral wholly void wholly v ention of the State constitution, in lence in fencing and bayonet exercises | Evidence has been given in the case that it provides for the taxing of shareholders in taxing districts where and P.
